

MONTHLY SUMMARY OF STATISTICS

SOUTH AUSTRALIA

No. 8

FEBRUARY, 1960

D.L.J. AITCHISON,

Deputy Commonwealth Statistician

CONTENTS

| <u>Subject</u>                | <u>Page</u> |
|-------------------------------|-------------|
| Demography                    | 1           |
| Employment and Basic Wage     | 2           |
| Unemployment                  | 3           |
| Buildings                     | 4, 5        |
| Production (selected items)   | 6 - 9       |
| Overseas trade                | 10 - 12     |
| Transport and communication   | 13          |
| Retail sales                  | 14          |
| Retail Hire Purchase          | 15          |
| Finance - State Government    | 16          |
| Other                         | 17          |
| Retail Price Indexes          | 18          |
| Rainfall (agricultural areas) | 19          |

## EXPLANATORY NOTES

Most of the tables in this publication have been prepared entirely on a monthly basis, to provide easy comparison of data. With a few exceptions, annual and quarterly figures are expressed as Monthly Averages, and these can be converted to actual totals by multiplying by 12 and 3 respectively.

For example (from page 1 opposite):

|  |       |
|--|-------|
| Marriages in year 1958 -                       |       |
| Monthly average                                | 542   |
| Therefore Annual total = $12 \times 542 =$     | 6,504 |
| (Actual figure is 6,505)                       |       |
| Births in March quarter 1959 -                 |       |
| Monthly average                                | 1,698 |
| Therefore quarterly total = $3 \times 1,698 =$ | 5,094 |
| (Actual figure is 5,095)                       |       |

The statistics as published can be adapted to give information in a number of different forms. For instance -

- (1) Details can be obtained for calendar or financial years as required, by addition of figures for the four relevant quarters.
- (2) Progress total for the year to date can be obtained by adding totals of quarters and months.

e.g. If May figures are the latest published, total for the 5 months to May =  $3 \times$  monthly average of March quarter + April and May.

This procedure can be used to calculate corresponding figures for the same period of the previous two years, or similar information on a financial year basis.

Details of production on pages 6 - 9 are for selected items only. Particulars for several commodities of considerable importance in this State have been withheld because publication would reveal confidential information.

It should be noted that in many cases particulars for the "current" month are not available when this bulletin is issued. In such instances, the most up-to-date information is shown.

### ABBREVIATIONS USED.

Throughout this bulletin the following symbols have been used -

|      |                        |   |                              |
|------|------------------------|---|------------------------------|
| n.a. | Not available          | p | Preliminary figures          |
| ..   | Nil (or less than 0.5) | r | Revised since previous issue |

When the symbols "p" and "r" are placed in the column headed "Period" (as for example on page 11), they refer to all figures on that particular line.

DEMOGRAPHY

1

| Period           |      | Births<br>(a) | Marriages<br>(a) | Deaths (a)    |       | Net<br>Migration | Population (c) |                   |

| Dec.             |      | 1,565         | 551              | 27            | 576   |                  |                |                   |
| Jan.             | 1960 | 1,015(d)      | 675              | 39            | 649   |                  |                |                   |
| Feb.             |      | 2,133(d)      | 525              | 21            | 534   |                  |                |                   |

(a) Registrations recorded during the period.

(b) Under 1 year of age.

(c) As at the end of each period.

(d) Large variations due to change in registration procedure.

NOTE: Population increases of the State can be calculated from the above figures as the sum of Natural Increase (Births minus Deaths) plus Net Migration.

## EMPLOYMENT AND BASIC WAGE

| Period |      | Employment (a) |                 |         |                             |                   | Basic Wage (b)<br>s. d. |     |                 |
|--------|------|----------------|-----------------|---------|-----------------------------|-------------------|-------------------------|-----|-----------------|
